Right angle splicing

Hardwired

front maintenance

Quick installation

High gray high brush

Appearance

Extending the appearance of the MI-PRO series boxes with small spacing, a semi-circular design element symbolizing infinite possibilities is used as the exterior design element. When N boxes are pieced together to form countless waves, it shows a soft and graceful state. This not only showcases a stable and smooth aesthetic, but also gives the product a sense of technology and futurism. Through this innovative exterior design concept, it conveys Lianjin's determination and belief in persistently exploring in the field of display, dedicated to showcasing excellent quality to customers.

The perfect fusion of
technology and vision

Innovative module

- The innovative design of the module ensures that the viewing angle of the light beads is not affected when rotating the module direction. Impact, there will be no color difference. Not only does it improve the visual comfort, but it also enhances the visual effect. The attractiveness of fruit.
- The module is hard connected to the box, and the module adopts magnetic suction automatic adsorption, which is reliable and does not fall off.

Product Details

- Integrated power signal quick plug interface reduces internal wiring work in the box, making installation faster.
- The box is made of high-precision die-casting material, with integrated molding, positioning columns, eagle hook locks (screws that cannot be loosened), reinforcement ribs and other details designed for higher flatness. Effectively improve installation efficiency and enhance customer experience.

High precision die cast aluminum casing

Free splicing, flexible display

The four types of enclosures, 1000X500mm, 1000X250mm, 750X250mm, and 500X250mm, can be flexibly spliced horizontally and vertically, providing unlimited possibilities for your creative ideas and applications in any scene

Creative splicing, infinite imagination

Supports shapes such as right angles and columns to meet various creative splicing needs.

Installation mode

Support multiple installation methods such as lifting, wall mounted installation, and column shaped installation, suitable for more scenarios.

Hanging

Wall mounting
